Connect your laboratory easily.

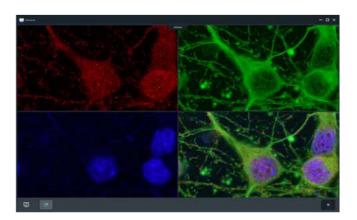

ZEISS Labscope

Seeing beyond

ZEISS Labscope

Your Imaging App for Routine Laboratory Work

Labscope transforms your ZEISS network-compatible microscopes into a WiFi-enabled imaging system. You can easily create digital labs – just connect to any of the microscopes at any point in time and from anywhere in your room. Be it in your histology, cytology, hematology or pathology lab – Labscope snaps images and records videos of your microscopic samples. You even acquire multichannel fluorescence images easier than ever.

Highlights

- See what's under every microscope in the room
- Get the real-time live image of any microscope with a tap of your finger
- Share images with anyone. Anywhere.
- Annotate and measure details in images, and save them on any shared network folder
- Acquire and edit multichannel fluorescence images
- Use a barcode scanner and a foot panel to work through even large sample quantities with great ease and reliability

Simple. Imaging. App.

Labscope is available for Windows PC and iPad.

Technical Specifications

Application Information	
Seller	Carl Zeiss AG
Category	Education, documentation, microphotography
Compatibility	iOS device which supports iOS 11, 12, 13 Windows 7, 10 – 64bit
	Note: for Axiocam 202 mono and Axiocam 208 color the supported Apple device is iPad Air 2 or above because of the performance limitation.
Compatible ZEISS Imaging Devices	Primo Star HDcam, Primotech, Primovert HDcam, Stemi 305 cam, Axiocam ERc 5s, Axiocam 202 mono, Axiocam 208 color
Languages	English, Czech, French, German, Italian, Japanese, Korean, Polish, Portuguese, Russian, Simplified Chinese, Spanish

Special Features:

- Acquire images wirelessly without the need for computer equipment
- Access cameras from multiple microscopes simultaneously from one device
- Use Labscope in your IVF laboratory to share images live during observation
- ZEISS Primovert HDcam and Labscope are perfectly suited to your cell culture laboratory. You place this inverted microscope right into the safety cabinet and transfer the images to your iPad.
- With Labcope you acquire and edit multichannel fluorescence images easier than ever.

Special Features:

- Histo-Pathology
- General Cytology
- Hematology
- Parasitology
- Microbiology
- Environmental Studies
- Food / Beverage Control
- Cell Laboratories
